Reviews

This ebook will be worth acquiring. It is actually written in basic phrases instead of hard to understand. It is extremely difficult to leave it before concluding, once you begin to read the book.

CHAPTER FIVE I cboke Entering Cornell, I had in mind one or the other of two alluring callings: I would be a botanist or a c tns breeder of fine sheep. For I was fascinated by the classification and distribution of plants, and at the same time much interested in the little I knew of breeding and heredity, acquired partly from limited reading, partly from experience. My early interest in sheep never died out, although my time came to be fully occupied with other matters. But, traveling through England, I have always been interested in the development of the different breeds through segregation and isolation, each county having even yet its special kind. In Australia, also, I have given some attention to the results of modern selective breeding, which provided New South Wales with the best merino or finewooled stock in the world. interest In connection with my studies I had read of * distinguished men who had made Botany their life otany work, and I had exchanged a few letters with Asa Gray of Harvard, the most eminent botanist in America. Yet such a career seemed almost unattainable to an impecunious boy with no visible prospect of extensive travel, which alone gives access to new floras. On the other hand, there were then no available means for intensive study of plant behavior, as our microscopes were inadequate, microtomes had not been invented, and plant physiology was in its infancy. Moreover, my own...
